

15 Minutes of *iTrainStation*

We understand that today's workforce is under more stress, tighter schedules and leaner budgets than ever before. As a result, we're all required to focus our time and efforts wisely.

At the same time, accidents don't work around our schedules. They arrive unscheduled and without warning — As a result, training demands our constant attention!

So what if we could deploy a training solution that would run itself? One that was effective, comprehensive and easy to use? What if that solution could save time, money and reduce incidents?

That's the purpose of "**15 Minutes of iTrainStation**". To allow you to witness at least one time saving, money saving, injury reducing item. We're so confident of this, we know you'll ask for more information.

Tuesday, February 12th 2019 @ 11:15 AM (ET) USER MANAGEMENT and IMPORTING USERS
